

113年度臺大醫學院及臺大醫院兩院轉譯醫學卓越研究計畫成果報告暨審查會議議程

時間
地點

113年11月8日星期五 13:30 至17:30

地點:基礎醫學大樓202簡報室

每一團隊口頭報告13分鐘，Q&A 7分鐘，共20分鐘。

13:30-13:35	院長致詞	
Session I 主持人：賴裕和教授		
13:35-13:55	高淑芬、黃祥博、黃憲松	Mechanistic study of alternative splicing in attention deficit hyperactivity disorder
13:55-14:15	林靜嫻、曾紀綱、林妙霞	Integrated RNA therapy, CRISPR/Cas9-genome engineering with focused ultrasound as a novel therapy for Parkinson's disease (II)
14:15-14:35	楊偉勛、詹智強	Exploring the molecular mechanism of MECR underlying obesity and associated neurodegenerative disorders
14:35-14:55	張以承、劉雅雯、張恬君	Probing the isoform specific function of GSK3 in skeletal muscle to develop therapeutic treatment for insulin resistance (IV)
14:55-15:15	黃韻如、盧彥伸、連晃駿 江盈澄、魏凌鴻、鄭永銘	Elucidating therapeutic responses in solid tumors via spatial omics profiling of intra-tumoral heterogeneity
15:15-15:35	中場休息	
Session II 主持人：林淑華教授		
15:35-15:55	楊鎧鍵、劉旻禕、張哲逢 林水龍、賴俊夫	The many faces of macrophages in organ injury, inflammation, repair and regeneration (V)
15:55-16:15	許 駿、李建國、許家郎	Deciphering the role of type 2 conventional dendritic cells (cDC2) crosspresentation in CD47-SIPR α blockade-induced antitumor immunity in hepatocellular carcinoma (II)
16:15-16:35	陳秉民、朱家瑜、程吉安 張書蓉	Explore tissue autoantigens and host pathogen interaction in autoimmune diseases - insights on pathogenesis, classification and precision therapy
16:35-16:55	張立群、魏子堂、林志萱	The role of soluble IL-2 receptor alpha chain in cancer cachexia
16:55-17:15	繆希椿、陳文彬、陳介章	Spontaneous colitis mediated by a defect in post-translational modification (PTM): from molecular events to translational relevance
17:15-17:30	總結
